Service Description

InTouch Multicultural Centre Against Family Violence is a statewide service which provides services, programs and responses to issues of family violence in CALD (Culturally And Linguistically Diverse) communities. By acknowledging the rights and diverse experiences of our clients, we develop and implement a number of culturally sensitive and holistic models for the provision of services to both victims and perpetrators of family violence. In tackling the issues of family violence, we act on multiple levels - individual, relationship and community. Our organisation strives to create a world where all women and children will be safe and free from violence.
